Ksharakarma

- Ksharakarma is a specific treatment modality in Ayurveda. Plants rich in ksharaguna (Alkaline Properties) are selected. Then through a series of procedures, kshara from the plant is extracted under strict sterile conditions.
- Ksharakarma has tremendous scope in Ano- the Rectal Wing, outgrowths of the body like warts, corn, non-healing ulcer and so on. Ksharakarma gives almost on-table results with no complications in the majority of cases. Few require repeated sittings. Ksharakarma has nullified many surgical operative cases with its results.

Ksharautra

Among the treatment options for Fistula- In-Ano, the promising name/only treatment option is ksharasutra. Non-operative mode of drug delivery, where kshara coated/medicated thread is passed through the track, changed periodically till healing.
